Alternative Names for School Districts

Wisconsin's 429 school districts are listed in this publication in alphabetical order by a shortened form of the legal district name. However, because many school districts are also known by other, less formal names, you may not be able to locate the district in the place where you are looking for it. This cross-reference list should help.

Section A:
Complete Annual School Cost Per Member

Information on "complete annual school cost per member" is retrieved from actual financial data on Annual Reports filed by school districts for the school years 1986-87, 1987-88, and 1988-89.

These figures are intended for inter-district cost comparisons, but cannot indicate the extent or quality of the educational program from one district to another. In general, it is expected that higher per-pupil costs can be at least partially attributed to increased educational offerings. The DPI encourages people who want to compare costs to research the reasons for the cost differential and include this information in their publications.

The per-member figures are based on "complete annual school costs" and "general aid membership" (see definitions below and in the Glossary, Section E). The transportation cost per member is computed by dividing the gross cost of transportation by the membership (not by the number of pupils transported).

Complete Annual School Cost (CASC) is defined as the gross cost of the general, special project, debt service and food service funds, plus the net cost of the building fund. The CASC also reflects the subtraction of costs paid for by incoming transfers from other school districts.

General Aid Membership is the average of the memberships on the third Friday in September and the second Friday in January, plus the prior year summer ADM equivalent.

If you have questions about Section A or need additional information or clarification, please contact Amza Vail, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

Section B:
Distribution of State Aid Dollars, 1988-89

Information on state aid paid during the 1988-89 school year is retrieved from records of payments made by the Department of Public Instruction. Each of the aid programs is briefly described in this section. Definitions of terms are provided in Section E (Glossary).

State aids are computed on prior year net costs and membership. Therefore, the aids paid in 1988-89 are based on net costs and membership from the 1987-88 school year.

If you have questions about Section B or need additional information or clarification, please contact Amza Vail, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

Equalization Aid for 1988-89

Requirements

General aid for public elementary and secondary schools is determined under the provisions set forth in the following statutes:

121.004	Definitions
121.07	General provisions; state aid computation
121.08	Payment of state aids; reductions
121.14	State aid for summer classes

The appropriation for the payment of such funds is found in s. 20.255(2)(ac), Wis. Stats.

Membership

Ss. 121.004(5) and 121.05(a), Wis. Stats., define "membership" as the average of the number of pupils enrolled on the third Friday of September and the second Friday of January, plus the summer school average daily membership equivalent as reported on the Budget Report of the school district. Membership from the Budget Report, January membership report and summer school report for fiscal year 1987-88 was used in the general aid computation for 1988-89.

Equalization

Under the provisions of s. 121.06, Wis. Stats., the Department of Revenue annually determines, on a uniform basis, the property value (called "equalized valuation") of each school district in Wisconsin. The equalized valuations for 1988 were used in computing general aid for the 1988-89 school year.

The local tax base available for the education of each child may be determined by dividing the district's equalized valuation by its membership. The resulting equalized valuation per member varies widely, from a low of 69,991 to a high of 1,105,616 for districts offering grades kindergarten through 12 in 1988-89. Obviously, if the local tax base provided the only source of revenue available to the local school district, the quality of education would likely vary widely among schools, depending on the ability of each district to raise sufficient property tax for operation of the schools.

The state general aid formula provides for equalization of the property tax base. A tax base of $292,680 was guaranteed to support education costs for each pupil in K-12 districts. If the district tax base falls below that amount, the state general aid formula supplements the local tax base up to the guaranteed tax base level.

Cost-Sharing

S. 121.07(6), Wis. Stats., defined "shared cost" as

> ...the sum of the net cost of the general fund and the net cost of the debt service fund. The net cost of the debt service fund included in the shared cost may not exceed an amount equal to $90 multiplied by the membership.

School districts establish their own educational programs in response to local needs and desires. Thus, the level of the educational programs may vary among districts along with the amount of funding needed to support the programs. Shared costs, as defined above, are paid by local taxes and state general aid on an equalization basis.

Suppose, for example, that a district has a shared cost of $4,090 per pupil and an equalized valuation of $160,974 per pupil. The equalized valuation is 55% of the state-guaranteed valuation per pupil, so the district will pay 55% of its shared cost ($2,250). The remaining 45% ($1,840) is paid by the state in the form of general aid.

The following diagram illustrates how the state and the local district each contribute a portion of the guaranteed valuation per pupil (the state's portion is called the "net guaranteed valuation"), and how each contributes a corresponding amount of the shared cost.

GUARANTEED VALUATION ($292,680/member)		SHARED COST ($4,090/member)
Net Guaranteed Valuation ($131,706/member)	State Share (45%)	General State Aid ($1,840/member)
Equalized Valuation ($160,974/member)	Local Share (55%)	Property Tax ($2,250/member)

General Aid Formula

The formula for general state aid is as follows:

$$\text{General State Aid} = \text{Shared Cost} \times \frac{\text{Net Guaranteed Valuation}}{\text{Guaranteed Valuation}}$$

For the example above, this would work as follows:

$$\begin{aligned}\text{General State Aid} &= \$4{,}090/\text{member} \times \frac{\$131{,}706}{\$292{,}680}\\ &= \$4{,}090/\text{member} \times 45\%\\ &= \$1{,}840/\text{member}\end{aligned}$$

Because the ratio of the net guaranteed valuation to the guaranteed valuation can be expressed as a percent, the above formula is often called the "percentage method" of computing aid.

The same computation can be performed in a slightly different fashion *(because of "rounding off" of individual figures, the results may not equal exactly, but for purposes of this example, it will be assumed that they do agree):*

$$\begin{aligned}\text{General State Aid} &= \frac{\text{Shared Cost}}{\text{Guaranteed Valuation}} \times \text{Net Guaranteed Valuation}\\ &= \frac{\$4{,}090/\text{member}}{\$292{,}680/\text{member}} \times \$131{,}706/\text{member}\\ &= 0.01397 \times \$131{,}706/\text{member} = \$1{,}840/\text{member}\end{aligned}$$

The number 0.01397 in the above computation is called a "levy rate." In this case it represents a tax of 0.01397, or 13.97 mills per dollar of equalized valuation. (A mill is 1/1000 of a dollar or 1/10 of a cent.) For this reason, the levy rate is sometimes called the "mill rate." While either the percentage method or the levy rate method of computing state aid will produce the same results, the levy-rate method is the one specified by law.

It is interesting to note that the levy rate is based solely on the district's spending level (the shared cost per member) and the guaranteed valuation. Since the guarantee is the same for all districts, the only factor in the formula which changes from one district to another is the cost. This produces a general rule that districts which spend at the same level per member will tax at the same rate.

It is also interesting to note that the same levy rate may be applied to the valuations discussed above to produce the corresponding amounts of shared costs:

Guaranteed Valuation x Levy Rate = Shared Cost
$292,680/member x 0.01397 = $4,090/member

Equalized Valuation x Levy Rate = Property Tax
$160,974/member x 0.01397 = $2,250/member

Net Guaranteed Val. x Levy Rate = General State Aid
$131,706/member x 0.01397 = $1,840/member

The state applies the same levy rate to its share of the guaranteed valuation as the district applies to its own equalized valuation. Together the state and the districts form a partnership to support the education of public elementary and secondary pupils in Wisconsin.

Two Levels of Sharing

Up to this point, only one guaranteed valuation has been discussed. However, the law provides for two levels of state support and, therefore, two guaranteed valuations - one for "low" costs and one for "high" costs. The $292,680 per pupil mentioned previously is the guaranteed valuation for "low" or primary costs, i.e., that part of the shared cost which falls below a ceiling established by s. 121.07(6)(b), Wis. Stats. In 1988-89 the primary cost ceiling was $4,090. The examples used previously involve a shared cost of $4,090 per member, which is at the primary cost ceiling. In such a case, the district had only primary costs.

"Secondary" costs consist of the shared cost above the primary cost ceiling. Thus, a district which had a shared cost of $4,500 per member would have a primary cost of $4,090 and a secondary cost of $410.

Just as the guaranteed valuation of $292,680 per member applies to the primary cost, so there is a secondary guaranteed valuation per member which is applied to the secondary cost. According to s. 121.07(7), Wis. Stats., the secondary guarantee is equal to 106% of the state-average equalized valuation per member rounded to the nearest hundred dollars. During 1988-89, the secondary guaranteed valuation per member was $176,698.

The secondary guarantee is applied in the same way as the primary guarantee; the secondary shared cost, divided by the secondary guarantee, produces the secondary levy rate. When the secondary levy rate is applied to the district's equalized valuation, it produces a property tax to help offset the secondary cost. For example, if a district had an equalized valuation of $160,974 per member, as in the previous examples, but had a shared cost of $4,500 per member, it would have a secondary cost of $410 per member. Its secondary state aid would then work out as follows:

$$\text{Secondary Aid} = \frac{\text{Secondary Cost}}{\text{Secondary Guarantee}} \times \text{Secondary Net Guaranteed Valuation}$$

$$= \frac{\$\quad 410\text{/member}}{\$179{,}698\text{/member}} \times \$18{,}724$$

$$= 0.00228 \times \$18{,}724 = \$43\text{/member}$$

This amount would be in addition to $1,840 per member in primary aid (on the primary cost of $4,090), worked out as described earlier. Thus, the district would receive a total of $1,883 per member in state aid and would have to raise the remaining $2,617 per member from its own tax base. To do so would result in a levy rate of 16.25 mills.

$$\text{Levy} = \frac{\text{Property Tax}}{\text{Equalized Val.}} = \frac{\$\ 2{,}617\text{/member}}{\$160{,}974\text{/member}} = 0.01625$$

Not surprisingly, this is the same value produced by adding together the primary and secondary levy rates of 0.01397 and 0.00228 respectively. Therefore, the general rule continues to hold true: districts which spend at the same level per pupil will tax at the same rate.

There is an aspect of secondary aid, however, which under certain conditions may offset some earned primary aid. For example, a district with an equalized valuation of $196,463 per member ($16,765 more than the secondary guarantee) and a shared cost of $4,517 per member would have a primary aid of $1,345 per member partially offset by a negative secondary aid of $40 per member, for a total aid of $1,305 per member. Note, though, that its tax rate will continue to be the same as all the other districts which are also spending $4,517 per member.

UHS and Elementary Districts

There were 430 school districts in Wisconsin in 1988-89. Of that number, 373 operated kindergarten through Grade 12. Another 10, called union high school (UHS) districts, operated only Grades 9 through 12. The remaining 47 districts are called elementary districts. They operated kindergarten through Grade 8 and fell within the same geographic area served by the UHS districts.

Each type of district has its own guarantee, as indicated in the table below:

Type of District	Primary Guarantee	Secondary Guarantee	Primary Ceiling
K-12	$292,680	$179,698	$4,090
UHS	878,040	539,094	4,090
K-8	439,020	269,547	4,090

Supplemental Aid

This type of aid is available to school districts which contain a tax incremental area. The amount of this aid, as established under s. 121.085, Wis. Stats is the difference between the amount of equalization aid generated using the full value of all taxable property and the amount generated if the equalized valuation of the tax incremental area were not allowed to exceed the value it had when it was created. For any Tax Incremental Districts created after January 1, 1983, the school district is not eligible for the 1988-89 supplemental aid.

Integration Aid

The authorization for state aids to districts for pupil transfers resulting from a plan to reduce racial imbalance (inter- or intra-district) is found in Subchapter 6 of Chapter 121 of the statutes. The integration plan outlined in Subchapter 6 involves transfers of minority (or nonminority) students from a school where at least 30% of pupils enrolled are minority (or nonminority) to a school where less than 30% of pupils enrolled are minority (nonminority). In the case of intra-district integration transfers, each transferred pupil is weighted at 1.325 in the equalization aid formula, and the additional aid generated is integration aid. In the case of inter-district transfers, the district of residence continues to count the pupil as 1.0 for equalization aid purposes (which is not integration aid), and the district of attendance is paid state aid amounting to approximately the cost of educating each transferred pupil. As an incentive to participate fully in the program, inter-district aid is increased by 20% if incoming transfer pupils exceed 5% of the district's enrollment.

Special Adjustment Aids

S. 121.105, Wis. Stats., provides additional aid to a school district that would receive less than 90% of state aid in the current year than it received in the previous year. "State aid" in this statute means the sum of payments provided to a school district under ss. 121.08, 121.085, 121.10, 121.105, 121.85 and 121.86 (equalization, supplemental, minimum, special adjustment, and integration aids, respectively). To qualify for this aid, the school district's equalized valuation per pupil must not exceed 135% of the state average equalized value per pupil and the additional aid must not result in a state aid payment greater than the district's shared cost.

Minimum Aid

A school district qualifies for minimum aid if the "state aids" (the sum of equalization aid and supplemental aid) are below per-pupil minimum amounts and certain criteria are met. These 1988-89 per-pupil minimums and criteria are as follows:

a. $250/member for school districts having a median household income of less than $15,000 (according to the last federal census).

b. $150/member for school districts having a median household income of at least $15,000 but less than $20,000 and their school property tax levy rate for the previous year was below the state average.

c. $250/member for school districts having a median household income of at least $15,000 but not more than $25,000 and their property tax levy rate for the previous year was above the state average.

The amount of minimum aid paid to a district is the difference between the "state aids" (1st paragraph) already paid and the amount determined under a, b, or c.

Children At Risk Aid

S. 118.153(4) (b), Wis. Stats., provides additional state aid in an amount equal to 10% of the school district's average per pupil aid provided under equalization, supplemental, integration, minimum, special adjustment, children at risk, and manufacturing adjustment for each at-risk pupil when a school board's annual report of an approved program for children at risk indicates any three of the following listed conditions existed in the previous school year:

1. The school district's average attendance rate for pupils enrolled in the school district's program for children at risk was at least 70%.

2. The school district's retention rate for pupils enrolled in the school district's program for children at risk was at least 70%.

3. At least 70% of the pupils enrolled in the school district's program for children at risk as high school seniors received a high school diploma.

4. At least 70% of the pupils enrolled in the school district's program for children at risk received academic credit.

5. The school district's program for children at risk can show, on average, at least one month of improvement in reading and mathematics performance for each month of instruction.

Categorical Aid for 1988-89

The following aid programs are considered categorical because they finance or reimburse some specific categories of instructional or supporting program cost.

Pupil Transportation Aid

State transportation aids are determined under the provisions of s. 121.58, Wis. Stats. The appropriation for reimbursement of transporting public and nonpublic school pupils is found in s. 20.255(2)(cr), Wis. Stats.

School districts that furnish transportation to and from public and nonpublic schools are entitled to receive state aid at the following rates:

Distance Transported	Regular Year	Summer School
0-2 miles (hazardous area)	$12/pupil	———
2-5 miles	$30/pupil	$4/pupil
5-8 miles	$45/pupil	$6/pupil
8-12 miles	$60/pupil	$6/pupil
12-15 miles	$68/pupil	$6/pupil
15-18 miles	$75/pupil	$6/pupil
over 18 miles	$85/pupil	$6/pupil

Distances are measured from the pupil's residence to the school attended, following the shortest commonly traveled route. Half payment is made for pupils transported less than 91 days (regular year) or 16 days (summer school).

In the 1988-89 school year, state aid was paid for 487,677 children (433,614 public and 54,063 private). However, school districts also transported, without benefit of transportation aid, about 35,886 children (32,218 public and 3,668 private) who lived less than 2 miles from school. School districts are reimbursed on the number of children transported during the prior year. The 1988-89 transportation aid is based on the number of children transported in the 1987-88 school year.

State Tuition Payments

State payment of tuition for pupils is authorized under s. 121.79, Wis. Stats.

S. 121.79 Tuition payments by state. (1) The state shall pay tuition from the appropriation under s. 20.255(2)(cg) for children attending public schools in the following cases.

(a) For children in children's homes.

(b) For children of parents employed at and residing on the grounds of a state or federal military camp, federal veteran hospital or state charitable or penal institution.

School Library Aid

(from the Common School Fund)

The source of authority for the Common School Fund is Article 10 Sections 4 and 5, Wisconsin State Constitution, and s. 43.70, Wis. Stats.; the appropriation is found under s. 20.255(2)(s), Wis. Stats. The income from the Common School Fund is distributed on the basis of the total number of children between the ages of 4 and 20 residing in the school district as of June 30 of the year before payments are made. The total number of children so reported in 1988 was 1,116,036. This number was divided into the Common School Fund balance of December 1, 1988 ($11,631,376) to produce a per-capita payment of $10.42 rounded to the nearest penny. When distributed at this rate, the school-library aid amounted to a total of $11,629,096 in 1988-89.

Driver Education Aid

(from the Highway Fund)

The authorization for driver-education aid is found in Subchapter 3 of Chapter 121 of Wisconsin statutes; the appropriation is listed in s. 20.255(2)(r), Wis. Stats., in which funds are transferred from the Highway Fund (chauffeur's license fees) to the Department of

Public Instruction. The funds are used to encourage school districts to promote effective driver training programs. In 1988-89, school districts received up to $50 for each pupil who successfully completed the classroom and behind-the-wheel phases of the driver-education program.

Handicapped Children Education Aid

There are 11 major areas of state aid for school districts, CHCEBs, and CESAs providing special programs for children with exceptional educational needs (EEN):

1. early childhood
2. physical or orthopedic disability
3. mental retardation or other developmental disability
4. hearing impairment
5. visual disability
6. speech and language disability
7. emotional disturbance
8. learning disability
9. school age parents
10. homebound instruction
11. alternate delivery system (multicategorical-SNDS)

In addition, the state pays aid on the cost of special transportation, school psychologists, social-workers, physical and occupational therapy, and special education directors. Classes for the physically handicapped include treatment and therapy as well as academic curriculum. The authorization for handicapped aid is found in s. 115.88, Wis. Stats., and the appropriation is listed under s. 20.255(2)(b), Wis. Stats. The plan of services for each special-education class must be approved by the DPI. The 1988-89 aid reimbursement by the state was based on the prior year's cost of EEN programs provided by the districts, CHCEBs, and CESAs.

The cost on which aid was paid included the salaries and fringe benefits for certified coordinators, EEN teachers and aides, occupational and physical therapists, psychologists, social workers, and substitutes. The state aid for psychologists and social workers was computed at 46.73% and the other staff at 57.73%, as the appropriation was not sufficient to pay the total statutory aid at 63% for instruction and 51% for psychologists and social workers.

Aid at 57.73% was also paid on the special transportation cost.

The boarding home cost for nonresident EEN children and the cost of transportation from the boarding home to the classroom was paid at 91.63% to the service provider.

Alcohol and Other Drug Abuse Grants

S. 115.36, Wis. Stats., authorizes the DPI to award grants to public school districts for demonstration projects designed to assist minors in avoiding or overcoming problems resulting from the abuse of alcohol and other drugs. Local districts must match 20% of the DPI grant from local sources. The appropriation is listed under s. 20.255(2)(g), Wis. Stats.

Matching School Lunch Aid

S. 115.34, Wis. Stats., authorizes the state to make payments to school districts for school lunches provided to children in the prior year. The payments meet the state's obligation to match federal aid under 42 USC 1751 et seq. The appropriation is found under s. 20.255(2)(cn), Wis. Stats.

Elderly Food Service Aid

S. 115.345, Wis. Stats., authorizes aid payments for elderly food service. School districts operating an approved food service program for the elderly may be reimbursed at the rate of $0.20 per meal for reasonable costs incurred excluding capital equipment costs. The appropriation is listed under s. 20.255(2)(cn), Wis. Stats.

Preschool to Grade 5 Program Grants

S. 115.45, Wis. Stats., authorizes payment of grants that provide structured educational experiences that focus on the needs of low-income pupils and include activities that encourage early skill development. Pupils enrolled in preschool programs and grades 1 to 3 are annually tested in reading, language arts and mathematics. Pupils in grades 4 and 5 are annually tested in reading, language arts, mathematics, science and social studies. The appropriation is listed under s. 20.25592 (do) Wis. State Stats.

Bilingual/Bicultural Aid

A bilingual/bicultural education program is designed to improve the comprehension, speaking, reading, and writing ability of a limited-English-speaking pupil in the English language, so that the pupil will be able to perform ordinary classwork in English. Any school district operating such a program is eligible to receive state aid equal to 63% of the approved expenditures attributable to the program. The authorization for the program and aid is established in Subchapter 7 of Chapter 115 of the statutes, and the appropriation is listed under Statute 20.255(2)(cc).

Youth Initiatives

S. 115.28, Wis. Stats., authorizes payment of grants that provide for education and training programs for youth ages 14 through 21 who are high school dropouts, or are in a high risk group of students likely to drop out of high school, so that they may advance in their educational standing or graduate from high school or the equivalent, and develop vocational or other skills that will increase their employability or future success in more advanced education or training programs. These programs are operated by local community organizations under contract with a public school district operating under ch. 119, Wis. Stats. The appropriation is listed under 20.255(2)(d), Wis. State Stats.

Wisconsin Morning Milk Program

S. 115.343, Wis. Stats., authorizes payment of aid for milk served to eligible children enrolled in kindergarten through grade 5. The appropriation is found under 20.255(2)(CP) Wis. Stats.

Aid to Milwaukee Public Schools

Milwaukee School District is eligible for funding of the following programs:

s. 119.71 Wis. Stats. – Five year-old kindergarten
s.119.72 Wis. Stats. – Early Childhood Education
s. 119.74 Wis. Stats. – Mentor Program for Educationally Disadvantaged Pupils

The appropriation that authorizes funding is 20.255(2)(ec), Wis. Stats.

Pupil Minimum Competency Tests

S. 118.30, Wis. Stats., authorizes payment to school districts participating in minimum competency testing programs for the cost of printing and scoring tests eligible for reimbursement under the program. The appropriation is found under s. 20.255(2)(d), Wis. Stats.

Youth Alcohol and Other Drug Abuse Programs

S. 115.362, Wis. Stats., authorizes payments of grants for alcohol and other drug abuse prevention and intervention programs similar to those made under 115.36, Alcohol and Other Drug Abuse. Districts receiving grants under 115.36 may not receive grants under 115.362.

Districts may receive only one grant under 115.362. A 20% match is required. The appropriation is found under s. 20.255(2)(fi) Wis. Stats.

Section C:
Estimated Equalization and Supplemental Aid Eligibility for 1989-90
(final eligibilities computed 6/90)

Information used to compute equalization and supplemental (TIF) aid for 1989-90 is retrieved from financial data in the 1988-89 Annual Reports, from membership data in 1988-89 Budget and January Membership Reports, and from equalized property valuations certified by the Wisconsin Department of Revenue for calendar year 1988. Aid is computed utilizing the equalization aid formula which is briefly explained in Section B.

If you have questions about Section C or need additional information or clarification, please contact Amza Vail, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

Introductory Comments

General (equalization and supplemental) aid is financial assistance to a school district which may be used to help fund a broad range of educational purposes by the district, as opposed to categorical aid, which must be used for a specific purpose or category of program. Categorical aids are paid on a reimbursement basis in the school year following the year in which the services were provided. General aid for 1989-90 is based on prior-year membership, costs, and equalized values.

Sources of Data

Figures for school district expenditures and receipts shown in this section are based on the 1988-89 Annual Reports which were due to be filed by school districts as of August 1, 1989. Subsequent revisions due to audits required under s. 120.14, Wis. Stats., have been included as well. Membership figures are based on the 1988-89 Budget Reports and January 1989 Membership Reports filed by school districts and subsequently revised by audits. Equalized valuations are based on the assessment of January 1, 1988, as certified by the Wisconsin Department of Revenue in May 1989.

Statewide Factors

The following factors apply to all districts in the computation of estimated general school aid for 1989-90.

Guaranteed Valuation per Member. The state, in s. 121.07(7), Wis. Stats., guarantees a minimum tax base to support the education of each child in the state. The primary guarantee supports costs up to the primary ceiling cost per member (described below), and is an amount determined by the department which distributes the appropriation under s. 20.255(2)(ac) and (q), Wis. Stats., each fiscal year. The secondary guarantee supports costs above the primary ceiling cost per member, and is defined as 106% of the average equalized valuation per member. Guarantees used in this estimation, by type of school district, are:

Primary Guarantee	Type	Secondary Guarantee
$286,900	K-12	$178,750
$860,700	UHS	$536,250
$430,350	K-8	$268,125

Primary Ceiling Cost Per Member. S. 121.07(6)(b), Wis. Stats., defines this value as $4,335 for 1989-90 aids.

Debt-Service Maximum Sharable Cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt service fund of the school district. However, Statute 121.07(6) places an upper limit on the amount of debt service cost per member subject to sharing for 1989-90 aids. The limit is $90 per member.

Explanation of Column Headings

SCHOOL COST is one of several types of expenditures made by a school district, as explained below under "Explanation of Column Headings."

COST/MEM for any given line is the school cost shown on that line divided by the number of members shown on that line.

AID/MEM for any given line is the state aid shown on that line divided by the number of members shown on that line.

LEVRT for any given line is the school cost minus the state aid on that line, divided by the equalized valuation on that line, and multiplied by 1000 to produce a rate expressed in mills of tax per dollar of equalized valuation.

EQZD VALUATION is one of two figures reflecting the inclusion or exclusion of certain types of property. All districts start with a figure which reflects assessment of real property only, at 100% of true value, and includes the incremental value (value above the base established) for any tax-incremental-finance (TIF) district within the boundaries of the school district. Some districts have a second value, which also has real property only assessed at 100%, but which has TIF increments excluded if the tax incremental district was created prior to January 1, 1983.

MEMBERS are pupils counted for state aid purposes. The figure shown represents the average of the third Friday in September and the second Friday in January memberships, plus the summer school ADM equivalent.

EV/MEM for any given line is the equalized valuation shown on that line divided by the number of members shown on that line. This is the figure which is compared to the primary and secondary guaranteed valuations per member to determine how well the district is able to finance its own cost.

Explanation of Line Headings

The first line for a school district gives the school district name and code number, the type of district (kindergarten through Grade 12 (K-12), secondary or union high school (UHS), or elementary (K-8)), the date on which data for the district was last updated, and the report used as the source of cost data for the aid computation.

PRIMARY cost is the part of shared cost which falls below the primary ceiling cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt-service fund (less any non-shared portion over $90 per member).

SECONDARY cost is the part of shared cost not included under primary cost.

ZERO ADJUSTMENT is an arithmetic means of bringing a negative value for aid computed under the primary and secondary levels up to the statutorily specified minimum level of zero. The levy rate shown on this line will always be negative, since the effect of cancelling negative aid is to reduce the local property tax obligation.

TIF (tax incremental finance) or supplemental aid, paid under the provisions of Statute 121.085, is the additional amount of aid generated by using an equalized valuation with the eligible TIF increment (if any) excluded. The lower tax base means that the district is less able to finance its own costs and is in need of additional state aid. School districts whose tax incremental districts were created after January 1, 1983, are not eligible for supplementary aid in 1989-90.

NON-SHARED cost is that part of the net cost of the debt service fund which exceeds the $90 per member subject to sharing by the state. No aid appears on this line, since these costs are not shared.

TOTAL cost is the sum of the primary cost and (if any) the secondary and non-shared costs. Total aid is the sum of the primary aid and (if any) the secondary, zero adjustment, and TIF aids. Other figures on this line are computed as indicated under "Explanation of Column Headings."

Miscellaneous

Rounding of individual items may mean that they will not add exactly to the totals shown.

Levy rates are of several different types. (1) The required levy rate is the shared cost divided by the guaranteed valuation at each level of sharing. (2) The indicated levy rate (shown herein) is the cost minus the aid for any given line divided by the prior-year equalized valuation shown on that line. By law, 1989-90 aid computations must be based on prior-year valuations. (3) The actual levy rate, which may reflect costs or receipts not shown in this section or the district's decision to alter its fund balance, is the amount of property tax levied divided by the current year equalized valuation. By law, local taxes must be levied based on current year valuations. The actual levy is also sometimes quoted on the basis of assessed valuation, which is generally a lower figure than equalized valuation and hence produces a higher levy rate. Assessed valuation levy rates are not comparable from one municipality to another and so are of limited use in publications like this one.

Section D:

Estimated Minimum, Special Adjustment, Integration and Children at Risk Aids, 1989-90

This section contains estimated 1989-90 eligibilities for aids (other than equalization and TIF) that are paid from the 1989-90 general aid appropriation based on 1988-89 financial and membership data.

If you have questions about Section D or need additional information or clarification, please contact Amza Vail, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

1989-90 Minimum Aid

1989-90 Minimum Aid criteria differ from the description in Section B for 1988-89 Minimum Aid.

Minimum state aid is defined in S. 121.10, Wis. Stats. Based upon prior year property tax levy rates and median household income (from the last Federal census), each school district is guaranteed a minimum level of aid per pupil. If the school district's equalization and supplemental (TIF) aid is below that minimum level, the district is granted the amount of "minimum aid" necessary to bring the district's aid per pupil up to the appropriate level. The 1989-90 categories of minimum aid and the criteria for each are listed below. If a school district qualifies under more than one category, the larger amount is granted.

1. $400 per pupil if the district's levy rate exceeds 107% of the state average levy rate and median household income does not exceed $25,000.

2. $300 per pupil if the district's median household income is below $15,000 (regardless of levy rate), or if the district's levy rate exceeds the state average levy rate (but not by more than 7%) and the median household income is at least $15,000 but does not exceed $25,000.

3. $175 per pupil if the district's levy rate does not exceed the state average levy rate and median household income is at least $15,000 but less than $22,000.

4. $100 per member, regardless of levy rate and median household income, if the district does not meet any of the above criteria.

Estimated 1989-90 Special Adjustment Aid

The explanation of Special Adjustment Aid in Section B also applies to 1989-90 Special Adjustment Aid. Beginning in 1989-90, an exception to the 135% value per pupil limitation is made if the district has fewer than 500 pupils and received Special Adjustment Aid in 1986-87, 1987-88, and 1988-89.

1989-90 Integration Transfer Aid

Inter-district and intra-district Integration Aid are explained in Section B. For 1989-90 the intra-district aid computation is changed as follows. The number of pupils transferred is multiplied by .325. The resulting membership enhancement is multiplied by the district's aid (equalization and supplemental) per member to arrive at intra-district integration aid. If the aid computed is less than 42.6% of the intra-district integration aid received in 1988-89, the district will receive the larger amount. In that case the aid is funded by a separate appropriation authorized in s. 121.86, Wis. Stats.

Each school district in Wisconsin is in exactly one CESA area. (Also see "IEA".)

Cost – In general, an expenditure for goods (supplies, materials, equipment, land, buildings) or services (salaries, benefits, utilities, professional fees). In determining costs, care must be taken to avoid double-counting. For example, if a school building is financed from borrowed money, the total cost should include either the payment to the building contractor or the repayment of the borrowed money, but not both. Similarly, if a school district spends money for a school lunch program out of the food-service fund and also transfers money from the general fund to the food-service fund to help pay for the school lunch program, it should not count the transfer as an additional cost. Depending on the grouping being examined, a given expenditure can be a cost in one case but not in another. For example, if one looks at a single school district, payments by that district to other school districts are counted as costs, since they are not otherwise counted by that district. If, however, one looks at the total expenditures for all school districts in the state, it is necessary to subtract the interdistrict transfers, or else the same cost would be reported by two different districts. There are many different ways in which costs can be assembled for various purposes. The following are the ones most often used in Wisconsin school districts:

Gross Cost – The sum of all nonduplicative expenditures of a fund or a school district.

Net Cost – The gross cost of a fund or a school district minus costs paid for by certain receipts (typically federal aid, state categorical aid, and local non-tax receipts) of that fund or district.

Complete Annual School Cost (CASC) – The gross cost in any given school year of the general, special-project, debt-service, food-service, and building funds, minus building fund costs paid for through long-term borrowing (which are already recorded in the debt-service fund).

Comprehensive Annual School Cost – Complete Annual School Cost plus the cost incurred for the operation of CESAs and the costs incurred by CHCEBs.

Partial Annual School Cost (PASC) – The CASC minus costs paid for by federal aid and local non-tax receipts.

Sharable Cost – The cost which must be paid by a combination of property taxes and state general aid; equivalent to the PASC minus costs paid for by state categorical aid; also equivalent to the net cost of the general fund plus the net cost of the debt-service fund.

Non-Shared Cost – For aid years 1989-90 and earlier, the part of the net cost of the debt-service fund of a school district which is in excess of $90 times the general aid membership.

Shared Cost – The cost used as the basis for computing state general aid; equivalent to the sharable cost minus the non-shared cost.

Primary Ceiling Cost – The primary ceiling cost per member multiplied by the district's general-aid membership. The primary ceiling cost per member is set by law, usually as part of the state's biennial budget, and is usually related to the state average shared cost per member.

Primary Cost – That portion of the shared cost which is below the primary ceiling cost and in which the state shares using the primary guaranteed valuation per member.

Secondary Cost – That portion of the shared cost which is above the primary ceiling cost and in which the state shares using the secondary guaranteed valuation per member.

Replacement Cost – The cost of replacing a capital object with another of a new material of like kind and quality in a given time and place.

Unit Cost – The cost of a function, activity, or service divided by the total number of units for which the function, activity, or service was provided.

County Handicapped Children's Education Board (CHCEB) – A branch of county government which provides instructional and therapeutic services to handicapped pupils. (Also, see "IEA".)

Course – An organization of subject matter and related learning experiences provided for the instruction of pupils on a regular or systematic basis. Credit toward graduation or completion of a program of studies generally is given to pupils for the successful completion of a course.

Crosswalk – In data processing, a procedure by which codes used for data in one database are translated into the codes of another database, making it possible to relate information between or among databases.

Curriculum – A planned structure of courses established for the purpose of the attainment of educational objectives.

Data – Plural of "datum".

Data Bank – A comprehensive collection of data, usually in machine-usable form, which can be used for such purposes as drawing subsamples for special studies, checking hypotheses, facilitating historical studies, and deriving summations and correlations. Typically, an educational data bank comprises component files relating to specific areas of information, such as pupils, staff, property, finance, instructional programs, and the community.

Data Processing – The use of machines and devices in the storing of individual data in a form by which they may be rapidly and accurately retrieved, processed, and reproduced as single-line items, as lists of items, or in desired combinations with other items.

Datum - A single count, measurement, description, or derived quantity.

Day in Session – A day on which the school is open and the pupils are under the guidance and direction of teachers. On some days the school plant may be closed and all pupils may be engaged in school activities outside the school plant under the guidance and direction of teachers. Such days should be considered as days in session. Days on which the teaching facility is closed for such reasons as holidays, teachers' conventions, and inclement weather should not be considered as days in session.

Debt Service – Expenditures for the retirement of principal and payment of interest on debt.

Degree – A title conferred by a college or university as official recognition for the completion of a program of studies or for other attainment.

Property Valuation – The dollar value placed on land and buildings for purposes of administering property taxes. There are two commonly used methods of describing property valuation: assessed and equalized. In addition, equalized valuation may either include or exclude a TIF increment. (Also see "appraisal", "appreciation", and "depreciation".)

Assessed Valuation – The property valuation determined by the municipal (city, village, town, or county) assessor as of January 1 in any given year. It is important that property of equal value be assessed at equal amounts, but it is not necessary that the amounts reflect the true sale value of the property. State law requires that total assessments within a municipality be within 10% of equalized valuation no less frequently than every 5 years.

Assessment Ratio – The ratio of assessed to equalized valuation.

Equalized Valuation – The assessed valuation multiplied by an adjustment factor computed by the Wisconsin Department of Revenue for each type of property in each taxing district, designed to cause each type of property to have comparable value regardless of local assessment practices. The objective is to have equalized valuation reflect the fair market value of each piece of property. (Fair Market Value – The value that would be agreed upon between a willing buyer and a willing seller in an "arm's length" transaction where neither is required to act.).

Tax Incremental Finance (TIF) Increment – The growth of equalized valuation of property within a TIF district above the base-level equalized valuation of the TIF district at the time it was created. Property taxes on the TIF increment which would normally go to school districts, counties, VTAE districts, and others, instead go to the municipality which created the TIF district to help that municipality pay for the cost of urban renewal within the TIF district.

Public Record - A record which by law, regulation, or custom is generally available to the public at large, or to segments of the public having a legitimate reason for reviewing the record.

Public School - See "school".

Pupil - An individual for whom instruction is provided in an educational program under the jurisdiction of a school, school system, or other educational institution. No distinction is made between the terms "student" and "pupil". A pupil may receive instruction in a school facility or in another location, such as at home or in a hospital. Instruction may be provided by direct pupil-teacher interaction or by some other approved medium, such as television, radio, telephone, and correspondence.

Pupil Count - One of the following methods of determining the number of pupils in a class, school, or school district. (Also see "school census".)

Attendance - The number of pupils present on a given school day.

Enrollment - The number of pupils officially enrolled as eligible to attend class, whether such pupils are actually in attendance on that day or not, plus pupils enrolled in home instruction and non-graduates enrolled in VTAE schools. If a pupil is absent from school without excuse for more than 20 consecutive school days, his or her enrollment is retroactively terminated on the last day of attendance.

Membership - The same as enrollment, with the following exceptions:

- First grade pupils must be at least 6 years old on September 1 to be counted.
- 5 year old kindergarten pupils must be at least 5 years old on September 1 to be counted. They are counted as half pupils, unless they are enrolled in a program which meets all day. In that case they are counted as full pupils if the class meets every day; or, if the class meets all day but not every day, an FTE is computed.
- 4 year old kindergarten pupils must be at least 4 years old on September 1 to be counted. They are counted as half pupils regardless of the amount of time spent in school.
- Handicapped pre-kindergarten pupils ages 3 through 5 are counted as half-pupils.
- In computing district totals, fractional counts are rounded off.
- Only district residents may be counted in membership.
- A pupil enrolled in a program operated by a CESA is counted by the district of residence.
- A pupil concurrently enrolled in the school district and a CHCEB is counted by the district of residence.
- A pupil for whom the district of residence pays tuition or similar charges is counted by the district of residence.
- A pupil who transfers to another district as part of a program to promote racial and cultural balance is counted by the district of residence.
- A pupil for whom the state pays tuition is counted by the district of attendance.

Average Daily Attendance (ADA) - The aggregate days of attendance during a given reporting period (typically a school year) divided by the number of days school is in session during that period.

Average Daily Membership (ADM) - The aggregate days of membership during a given reporting period (typically a school year) divided by the number of days school is in session during that period.

Summer ADM Equivalent - The aggregate class periods of membership for the summer session divided by 1,080. (The value 1,080 represents the number of class periods in a typical school year, assuming 6 periods per day and 180 days per year.)

Basic Membership – The membership on the third Friday in September of any given school year plus the summer ADM equivalent for the preceding summer session.

General Aid Membership – The prior-year summer ADM equivalent plus the average of the prior-year memberships on the third Friday in September and the second Friday in January.

School – A collection of pupils in one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, typically housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same school plant. A school may also consist of pupils in various alternative programs under Statute 118.15(1)(d) and (2) who are grouped together for administrative convenience. There are several methods of classifying schools, of which two will be mentioned here: (a) By Administration. Generally based on who makes the decisions and pays the bills. These terms are in common use:

Public School – A school operated by publicly elected or appointed school officials, in which the program and activities are under the control of those officials, and which is supported primarily through public funds.

Private School – An institution with a private educational program that meets all of the criteria under Statute 118.165(1) or is determined to be a private school by the state superintendent under Statute 118.167.

Parochial School – A private school operated by a religious organization or in which religious instruction is offered.

Home-Based Private Instruction – A program of educational instruction provided to a child by the child's parent or guardian or by a person designated by the parent or guardian. An instructional program provided to members of more than one family unit does not constitute home-based private instruction. Although home-based instruction does not occur in a "school", as defined above, it may be substituted for school attendance under Statute 118.15(4) if it meets the requirements for private schools under Statute 118.165(1).

(b) By Grade Level. Based on local and state practice and tradition, but generally separately administered and servicing pupils grouped on the basis of age. These terms are in common use:

High School – Generally a school offering separate classes in different subjects and from which it is possible to graduate with a diploma.

Junior High School – A school between the elementary- and high-school levels, usually offering at least some separate classes in different subjects and usually covering Grades 7, 8 and 9 (in a 6-3-3 plan) or 7 and 8 (in a 6-2-4 plan).

Secondary School – A high school or junior high school.

Middle School – A school with a program designed specifically for the early-adolescent learner, usually beginning with Grade 5 or 6.

Kindergarten – (1) A class offering learning experiences prior to Grade 1, generally oriented more toward developing basic social and motor skills than cognitive learning. (2) A school comprising only classes no higher than kindergarten.

Pre-Kindergarten – (1) A class offering learning experiences prior to kindergarten, generally oriented toward basic physical care, socialization, and development of gross motor skills. (2) A school comprising only pre-kindergarten classes.

School Aid Credit – A two-year (1985-86 and 1986-87) appropriation by the state under s. 20.835(3)(c), Wis. Stats., which was paid to municipalities and applied as school tax relief to taxpayers.

School Board – The governing body of a school district, comprising 3, 5, 7, 9, or 11 publicly elected members. Wisconsin law permits 4 different methods of election:

At Large by District.

(a) A candidate may reside anywhere in the district.

(b) He or she runs against all other candidates.

(c) Everybody in the school district may vote for any candidate.

(d) Those elected represent the entire district.

(b) He or she runs against all other candidates from that area.

(c) Everybody in the school district may vote for any candidate.

(d) Those elected represent the areas in which they reside.

(b) He or she runs against all other candidates who have declared they are running for a particular numbered seat, as provided by Statute 120.02(4).

(c) Everybody in the school district may vote for any candidate.

(d) Those elected represent the entire district.

(Also see "pupil count".)

School District – A geographical area established for administering, financing, and determining attendance eligibility for elementary and/or secondary education. (Also see "LEA".) School districts may be categorized in many ways, two of which are of interest here:

(a) By Scope. Based on grades operated. The 3 permissible categories are pre-kindergarten (PK) to Grade 12 (PI-12), elementary (PK-8, and high school (9-12); the latter 2 categories share the same territory, with multiple elementary districts for each high-school district.

(b) By Kind. Based on method of governance:

Common – Budget is presented to, and tax levy is voted on, by an annual meeting of citizens, who also have other more rarely used powers; however, the school board may subsequently alter the levy, and it makes most of the operating policy decisions. Covered in Subchapter I of Chapter 120 of the statutes.

Union High – Just like a common district, except it operates only Grades 9-12.

Covered in Chapter 119 of the statutes.

Alternative Names for School Districts

Wisconsin's 428 school districts are listed in this publication in alphabetical order by a shortened form of the legal district name. However, because many school districts are also known by other, less formal names, you may not be able to locate the district in the place where you are looking for it. This cross-reference list is provided to assist you.

Section C:

Complete Annual School Cost Per Member

Information on "complete annual school cost per member" is retrieved from financial data on Annual Reports filed by school districts for the school years 1987-88, 1988-89, and 1989-90, and from Budget Reports for 1990-91.*

These figures are intended for inter-district cost comparisons, but cannot indicate the extent or quality of the educational program from one district to another. In general, it is expected that higher per-pupil costs can be at least partially attributed to increased educational offerings. The DPI encourages people who want to compare costs to research the reasons for the cost differential and include this information in their publications.

The per-member figures are based on "complete annual school costs" and "general aid membership" (see definitions below and in the Glossary, Section G). The transportation cost per member is computed by dividing the gross cost of transportation by the membership (not by the number of pupils transported).

Complete Annual School Cost (CASC) is defined as the gross cost of the general, special project, debt service and food service funds, plus the net cost of the building fund. The CASC also reflects the subtraction of costs paid for by incoming transfers from other school districts.

General Aid Membership is the average of the memberships on the third Friday in September and the second Friday in January, plus the prior year summer ADM equivalent.

If you have questions about Section C or need additional information or clarification, please contact Amza Vail, Department of Public Instruction, Bureau for State School Aids Administration and Consultation, P. O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2840.

---

* 1990-91 figures should be viewed as estimates only and used with caution as they are based only on budgeted expenditures (not actual) and on incomplete and unaudited membership data.

Section D:

Distribution of State Aid Dollars, 1989-90

Information on state aid paid during the 1989-90 school year is retrieved from records of aid-payments made by the Department of Public Instruction from July 1, 1989 to June 30, 1990. Each of the aid programs is briefly described in this section. Definitions of terms are provided in Section G (Glossary).

State aid programs can be categorized into two reimbursement types, "formula based" and "grant-in-aid." Formula based aid programs are generally computed from prior year cost and pupil data. These include all the general aid programs and categorical aid programs such as Pupil Transportation, State Tuition, Common School Fund, Driver Education, and Handicapped Education. Reimbursements for "grant-in-aid" programs, where grant awards documents are issued, are usually on a current year claim/reimbursement basis.

If you have questions about Section D or need additional information or clarification, please contact Amza Vail, Department of Public Instruction, Bureau for State School Aids Administration and Consultation, P. O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2840.

Equalization Aid for 1989-90

Equalization aid for public elementary and secondary schools is determined under the provisions set forth in the following statutes:

121.004	Definitions
121.07	General provisions; state aid computation
121.08	Payment of state aids; reductions
121.14	State aid for summer classes

The appropriations for the payment of such funds in 1989-90 were found in s. 20.255(2)(ac) and (q), Wis. Stats.

Membership

Ss. 121.004(5) and 121.05(a), Wis. Stats., define "membership" as the average of the number of pupils enrolled on the third Friday of September and the second Friday of January, plus the summer school average daily membership equivalent. Memberships from the Budget report, January membership report, and summer school report for fiscal year 1988-89 were used in the aid computation for 1989-90.

Equalization

Under the provisions of s. 121.06, Wis. Stats., the Department of Revenue annually determines, on a uniform basis, the property value (called "equalized valuation") of each school district in Wisconsin. The equalized valuations for 1988 were used in computing equalization aid for the 1989-90 school year.

The local tax base available for the education of each child may be determined by dividing the district's equalized valuation by its membership. The resulting equalized valuation per member varies widely, from less than 100,000 to over 1,000,000, for districts offering grades kindergarten through 12. Obviously, if the local tax base provided the only source of revenue available to the local school district, the quality of education would likely vary widely among schools, depending on the ability of each district to raise sufficient property tax revenue for operation of the schools.

The state general aid formula provides for equalization of the property tax base. A specific tax base is guaranteed to support education costs for each pupil. If the district tax base is below that amount, the state general aid formula supplements the local tax base up to the guaranteed tax base level.

Shared Cost

S. 121.07(6), Wis. Stats., defined "shared cost" for 1989-90 aids as

> ...the sum of the net cost of the general fund and the net cost of the debt service fund. The net cost of the debt service fund included in the shared cost may not exceed an amount equal to $90 multiplied by the membership.

K-12, UHS, and Elementary Districts

There were 429 school districts in Wisconsin in 1989-90. Of that number, 372 operated kindergarten through Grade 12. Another 10, called union high school (UHS) districts, operated only Grades 9 through 12. The remaining 47 districts, called elementary districts, operated kindergarten through Grade 8 (K-8) and are within the same geographic area served by the UHS districts.

Each type of district has its own guarantee, as indicated in the table below:

1989-90 Equalization Aid Formula Factors

Type of District	Primary Guarantee	Secondary Guarantee	Primary Ceiling
K-12	$287,009	$178,758	$4,335
UHS	861,027	536,274	4,335
K-8	430,513	268,137	4,335

Cost Sharing

School districts establish their own educational programs in response to local needs and desires. Thus, the level of the educational programs may vary among districts along with the amount of funding needed to support the programs. Shared costs are paid by local taxes and state general aid on an equalization basis.

Suppose, for example, that a district spends below the primary cost ceiling and has an equalized valuation per pupil that is 55% of the state guaranteed valuation per pupil. Under the equalization principle, the district must raise 55% of its shared cost locally and the remaining 45% of shared cost is paid by the state in the form of general aid.

For purposes of providing a more detailed explanation of the general aid formula, this narrative assumes a primary cost ceiling of $5,000 per pupil, a state K-12 primary guaranteed value per pupil of $300,000, and a state K-12 secondary guaranteed value per pupil of $180,000.

The following diagram illustrates how the state and the local district each contribute a portion of the guaranteed valuation per pupil (the state's portion is called the "net guaranteed valuation"), and how each contributes a corresponding amount of the shared cost.

GUARANTEED VALUATION ($300,000/member)		SHARED COST ($5,000/member)
Net Guaranteed Valuation ($135,000/member)	State Share (45%)	General State Aid ($2,250/member)
Equalized Valuation ($165,000/member)	Local Share (55%)	Property Tax ($2,750/member)

General Aid Formula

The formula for general state aid is as follows:

$$\text{General State Aid} = \text{Shared Cost} \times \frac{\text{Net Guaranteed Valuation}}{\text{Guaranteed Valuation}}$$

For the example above, this would work as follows:

$$\begin{aligned}\text{General State Aid} &= \$5{,}000/\text{member} \times \frac{\$135{,}000}{\$300{,}000}\\ &= \$5{,}000/\text{member} \times 45\%\\ &= \$2{,}250/\text{member}\end{aligned}$$

Because the ratio of the net guaranteed valuation to the guaranteed valuation can be expressed as a percent, the above formula is often called the "percentage method" of computing aid.

The same computation can be performed in a slightly different fashion.

$$\begin{aligned}\text{General State Aid} &= \frac{\text{Shared Cost}}{\text{Guaranteed Valuation}} \times \text{Net Guaranteed Valuation}\\ &= \frac{\$5{,}000/\text{member}}{\$300{,}000/\text{member}} \times \$135{,}000/\text{member}\\ &= 0.01666667 \times \$135{,}000/\text{member} = \$2{,}250/\text{member}\end{aligned}$$

The number 0.01666667 in the above computation is called a "levy rate." In this example it represents a tax of 0.01666667, or 16.67 mills per dollar of equalized valuation. (A mill is 1/1000 of a dollar or 1/10 of a cent.) For this reason, the levy rate is sometimes called the "mill rate." While either the percentage method or the levy rate method of computing state aid will produce the same results, the levy-rate method is the one specified by law.

Note that the levy rate is based solely on the district's spending level (the shared cost per member) and the guaranteed valuation. Since the guarantee is the same for all districts, the only factor in the formula which changes from one district to another is the cost. This produces a general rule that districts which spend at the same level per member will tax at the same rate.

Also note that the same levy rate may be applied to the valuations discussed above to produce the corresponding amounts of shared costs:

Guaranteed Value x Levy Rate = Shared Cost
$300,000/member x 0.01666667 = $5,000/member

Equalized Value x Levy Rate = Property Tax
$165,000/member x 0.01666667 = $2,750/member

Net Guaranteed Value x Levy Rate = General State Aid
$131,706/member x 0.01666667 = $2,250/member

The state applies the same levy rate to its share of the guaranteed valuation as the district applies to its own equalized valuation. Together the state and districts form a partnership to support education of public elementary and secondary pupils in Wisconsin.

Two Levels of Sharing

Up to this point, only one guaranteed valuation has been discussed. However, the law provides for two levels of state support and, therefore, two guaranteed valuations - one for "low" costs and one for "high" costs. The $300,000 per pupil mentioned previously in this example is the guaranteed valuation for "low" or primary costs, i.e., that part of the shared cost which falls below a primary cost ceiling established by statute. The examples used previously involve a shared cost of $5,000 per member, which is at the primary cost ceiling used for this example. In such a case, the district would have only primary costs.

"Secondary" costs consist of the shared cost above the primary cost ceiling. Thus, a district which had a shared cost of $5,500 per member would have a primary cost of $5,000 and a secondary cost of $500.

Just as the primary guaranteed valuation per member applies to the primary cost, so there is a secondary guaranteed valuation per member which is applied to the secondary cost. According to s. 121.07(7), Wis. Stats., the secondary guarantee is equal to 106% of the state-average equalized valuation per member rounded to the next lowest dollar. For this example, we will assume a secondary guaranteed valuation of 180,000.

The secondary guarantee is applied in the same way as the primary guarantee; the secondary shared cost divided by the secondary guarantee produces the secondary levy rate. When the secondary levy rate is applied to the district's equalized valuation, it produces a property tax to help offset the secondary cost. For example, if a district had an equalized valuation of $165,000 per member, as in the previous example, but had a shared cost of $5,500 per member, it would have a secondary cost of $500 per member. Its secondary state aid would then work out as follows:

$$\text{Secondary Aid} = \frac{\text{Secondary Cost}}{\text{Secondary Guarantee}} \times \text{Secondary Net Guaranteed Valuation}$$

$$= \frac{\$\ 500/\text{member}}{\$180{,}000/\text{member}} \times \$15{,}000$$

$$= .00277778 \times \$15{,}000 = \$42/\text{member}$$

This amount would be in addition to the $2,250 per member in primary aid (on the primary cost of $5,000), worked out as described earlier. Thus, the district would receive a total of $2,292 per member in state aid and would raise the remaining $3,208 per member from its own tax base. To do so would result in a levy rate of 19.44 mills.

$$\text{Levy} = \frac{\text{Property Tax}}{\text{Equalized Value}} = \frac{\$\ 3{,}208/\text{member}}{\$165{,}000/\text{member}} = 0.01944242$$

Not surprisingly, this is the same value produced by adding together the primary and secondary levy rates of 16.67 mills and 2.77 mills respectively. Therefore, the general rule continues to hold true: districts which spend at the same level per pupil will tax at the same rate.

There is one aspect of secondary aid, however, which under certain conditions may offset some earned primary aid. For example, a district with an equalized valuation of $200,000 per member ($20,000 more than the secondary guarantee) and a shared cost of $5,500 per member would have primary aid of $1,833 per member partially offset by negative secondary aid of $56 per member, for total aid of $1,777 per member. Note, though, that its tax rate will continue to be the same as other districts which spend $5,500 per member.

Supplemental Aid

Supplemental aid is commonly called "TIF aid." This aid is available to school districts which contain a tax incremental financing district. The amount of this aid, as established under s. 121.085, Wis. Stats., is the difference between the amount of equalization aid generated using the full value of all taxable property and the amount generated if the equalized valuation of the tax incremental area were not allowed to exceed the value it had when it was created. For any tax incremental districts created after January 1, 1983, the school district is not eligible for the 1989-90 supplemental aid.

Integration Aid

The authorization for state aid to districts for pupil transfers resulting from a plan to reduce racial imbalance (inter- or intra-district) is found in Subchapter 6 of Chapter 121 of the statutes. The integration plan outlined in Subchapter 6 involves transfers of minority (or nonminority) students from a school where at least 30% of pupils enrolled are minority (or nonminority) to a school where less than 30% of pupils enrolled are minority (nonminority).

In the case of intra-district integration transfers, the number of pupils transferred is multiplied by .325. The resulting membership enhancement is multiplied by the district's aid (equalization and supplemental) per member to arrive at intra-district integration aid. If the aid computed is less than 42.6% of the intra-district integration aid received in 1988-89, the district will receive the larger amount. In that case the aid is funded by a separate appropriation authorized in s. 121.86, Wis. Stats.

In the case of inter-district transfers, the district of residence continues to count the pupil as 1.0 for equalization aid purposes (which is not integration aid), and the district of attendance is paid state aid amounting to approximately the cost of educating each transferred pupil. As an incentive to participate fully in the program, inter-district aid is increased by 20% if incoming transfer pupils exceed 5% of the district's enrollment.

Special Adjustment Aid

S. 121.105, Wis. Stats., provides additional aid to a school district that would receive less than 90% of state aid in the current year than it received in the previous year. "State aid" in this statute means the sum of payments provided to a school district under ss. 121.08, 121.085, 121.10, 121.105, 121.85 and 121.86 (equalization, supplemental, minimum, special adjustment, and integration aids, respectively). To qualify for this aid, the school district's equalized valuation per pupil must not exceed 135% of the state average equalized value per pupil and the additional aid must not result in a state aid payment greater than the district's shared cost. An exception to the 135% value per pupil limitation is made if the district has fewer than 500 pupils and received special adjustment aid in 1986-87, 1987-88, and 1988-89.

Minimum Aid

Minimum state aid is defined in S. 121.10, Wis. Stats. Based upon prior year property tax levy rates and median household income (from the last Federal census), each school district is guaranteed a minimum level of aid per pupil. If the school district's equalization and supplemental (TIF) aid is below that minimum level, the district is granted the amount of "minimum aid" necessary to bring the district's aid per pupil up to the appropriate level. Categories of minimum aid and the criteria for each are listed below. If a school district qualifies under more than one category, the larger amount is granted.

1. $400 per pupil if the district's levy rate exceeds 107% of the state average levy rate and median household income does not exceed $25,000.

2. $300 per pupil if the district's median household income is below $15,000 (regardless of levy rate), or if the district's levy rate exceeds the state average levy rate (but not by more than 7%) and the median household income is at least $15,000 but does not exceed $25,000.

3. $175 per pupil if the district's levy rate does not exceed the state average levy rate and median household income is at least $15,000 but less than $22,000.

4. $100 per member, regardless of levy rate and median household income, if the district does not meet any of the above criteria.

Children At Risk Aid

S. 118.153(4) (b), Wis. Stats., provides additional state aid in an amount equal to 10% of the school district's average per pupil aid provided under equalization, supplemental, integration, minimum, special adjustment, children at risk, and manufacturing adjustment for each at-risk pupil when a school board's annual report of an approved program for children at risk indicates any three of the following listed conditions existed in the previous school year:

1. The school district's average attendance rate for pupils enrolled in the school district's program for children at risk was at least 70%.

2. The school district's retention rate for pupils enrolled in the school district's program for children at risk was at least 70%.

3. At least 70% of the pupils enrolled in the school district's program for children at risk as high school seniors received a high school diploma.

4. At least 70% of the pupils enrolled in the school district's program for children at risk received academic credit.

5. The school district's program for children at risk can show significant improvement in reading and mathematics performance for each semester of instruction.

Pupil Transportation Aid

State transportation aids are determined under the provisions of s. 121.58, Wis. Stats. The appropriation for reimbursement of transporting public and nonpublic school pupils is found in s. 20.255(2)(cr), Wis. Stats.

School districts that furnish transportation to and from public and nonpublic schools are entitled to receive state aid at the following rates:

Distance Transported	**Regular Year**	**Summer School**
0-2 miles (hazardous area)	$12/pupil	———
2-5 miles	$30/pupil	$4/pupil
5-8 miles	$45/pupil	$6/pupil

8-12 miles	$60/pupil	$6/pupil
12-15 miles	$68/pupil	$6/pupil
15-18 miles	$75/pupil	$6/pupil
over 18 miles	$85/pupil	$6/pupil

Distances are measured from the pupil's residence to the school attended, following the shortest commonly traveled route. Half payment is made for pupils transported less than 91 days (regular year) or 16 days (summer school).

In the 1989-90 school year, state aid was paid for 495,175 children (441,112 public and 51,859 private). School districts are reimbursed on the number of children transported during the prior year. The 1989-90 transportation aid was based on the number of children transported in the 1988-89 school year.

State Tuition Payments

State payment of tuition for pupils is authorized under s. 121.79, Wis. Stats.

S. 121.79 Tuition payments by state. (1) The state shall pay tuition from the appropriation under s. 20.255(2)(cg) for children attending public schools in the following cases.

(a) For children in children's homes.

(b) For children of parents employed at and residing on the grounds of a state or federal military camp, federal veteran hospital or state charitable or penal institution.

(c) For children in foster homes and for children in group homes if:

1. The foster or group home is located outside the school district in which the child's parent or guardian resides; and

2. The foster or group home is exempted (from property taxation) under s.70.11.

School Library Aid

(from the Common School Fund)

The source of authority for the Common School Fund is Article 10 Sections 4 and 5, Wisconsin State Constitution, and s. 43.70, Wis. Stats. The appropriation is found under s. 20.255(2)(s), Wis. Stats. The income from the Common School Fund is distributed on the basis of the total number of children between the ages of 4 and 20 residing in the school district as of June 30 of the year before payments are made. The total number of children so reported in 1989 was 1,113,893. This number was divided into the Common School Fund balance of December 1, 1989 ($13,444,490) to produce a per-capita payment of $12.06 rounded to the nearest penny. When distributed at this rate, the school library aid amounted to a total of $13,433,549 in 1989-90.

Driver Education Aid

(from the Highway Fund)

The authorization for driver education aid is found in Subchapter 3 of Chapter 121 of the Wisconsin Statutes. The appropriation is listed in s. 20.255(2)(r), Wis. Stats., in which funds are transferred from the Highway Fund (chauffeur's license fees) to the Department of Public Instruction. These funds are used to encourage school districts to promote effective driver training programs. In 1989-90, school districts received up to $50 for each pupil who successfully completed the classroom and behind-the-wheel phases of the driver education program.

Handicapped Children Education Aid

There are 11 major areas of state aid for school districts, CHCEBs, and CESAs providing special programs for children with exceptional educational needs (EEN):

1. early childhood
2. physical or orthopedic disability
3. mental retardation or other developmental disability
4. hearing impairment
5. visual disability
6. speech and language disability
7. emotional disturbance
8. learning disability
9. school age parents
10. homebound instruction
11. alternate delivery system (multicategorical-SNDS)

In addition, the state pays aid on the cost of special transportation, school psychologists, social workers, physical and occupational therapy, and special education directors. Classes for the physically handicapped include treatment and therapy as well as academic curriculum. The authorization for handicapped aid is found in s. 115.88, Wis. Stats., and the appropriation is listed under s. 20.255(2)(b), Wis. Stats. The plan of services for each special education class must be approved by the DPI.

The 1989-90 aid reimbursement by the state was based on the prior year's cost of EEN programs provided by school districts, CHCEBs, and CESAs.

These costs included the salaries and fringe benefits for certified coordinators, EEN teachers and aides, occupational and physical therapists, psychologists, social workers, and substitutes. The 1989-90 state aid for psychologists and social workers was computed at 48.59% and for other staff at 60.02%, as the appropriation was insufficient to pay the total statutory aid rates of 63% for instruction and 51% for psychologists and social workers. Aid at 60.02% was also paid on the special transportation cost.

In 1989-90 the boarding home cost for nonresident EEN children and the cost of transportation from the boarding home to the classroom was paid at 95.25% to the service provider.

Matching School Lunch Aid

S. 115.34, Wis. Stats., authorizes the state to make payments to school districts for school lunches provided to children in the prior year. The payments meet the state's obligation to match federal aid under 42 USC 1751 et seq. The appropriation is found under s. 20.255(2)(cn), Wis. Stats.

Elderly Food Service Aid

S. 115.345, Wis. Stats., authorizes aid payments for elderly food service. School districts operating an approved food service program for the elderly may be reimbursed at the rate of $0.20 per meal for reasonable costs incurred excluding capital equipment costs. The appropriation is listed under s. 20.255(2)(cn), Wis. Stats.

Wisconsin Morning Milk Program

S. 115.343, Wis. Stats., authorizes payment of aid for milk served to eligible children enrolled in kindergarten through grade 5. The appropriation is found under 20.255(2)(CPC) Wis. Stats.

Bilingual/Bicultural Aid

A bilingual/bicultural education program is designed to improve the comprehension, speaking, reading, and writing ability of a limited-English-speaking pupil in the English language, so that the pupil will be able to perform ordinary classwork in English. Any school district operating such a program is eligible to receive state aid equal to 63% of the approved expenditures attributable to the program. The authorization for the program and aid is established in Subchapter 7 of Chapter 115 of the statutes and the appropriation is listed under Statute 20.255(2)(cc).

Youth Initiatives

S. 115.28, Wis. Stats., authorizes payment of grants that provide for education and training programs for youth ages 14 through 21 who are high school dropouts, or are in a high risk group of students likely to drop out of high school, so that they may advance in their educational standing or graduate from high school or the equivalent and develop vocational or other skills that will increase their employability or future success in more advanced education or training programs. These programs are operated by local community organizations under contract with a public school district operating under ch. 119, Wis. Stats. The appropriation is listed under 20.255(2)(d), Wis. State Stats.

Preschool to Grade 5 Program Grants

S. 115.45, Wis. Stats., authorizes payment of grants that provide structured educational experiences that focus on the needs of low-income pupils and include activities that encourage early skill development. Pupils enrolled in preschool programs and grades 1 to 3 are annually tested in reading, language arts and mathematics. Pupils in grades 4 and 5 are annually tested in reading, language arts, mathematics, science and social studies. The appropriation is listed under s. 20.255(2)(do), Wis. State Stats.

Aid to Milwaukee Public Schools

Milwaukee School District is eligible for funding of the following programs:

s. 119.71 Wis. Stats. – Five year-old kindergarten
s.119.72 Wis. Stats. – Early Childhood Education
s. 119.74 Wis. Stats. – Mentor Program for Educationally Disadvantaged Pupils

The appropriation that authorizes funding is 20.255(2)(ec), Wis. Stats.

Learning Assistance Programs

S. 118.30, Wis. Stats., authorizes payment of grants designed to (1) coordinate educational and health and social services for pupils and their families (2) integrate early childhood education and child care (3) develop, implement or enhance programs for gifted and talented pupils and (4) provide services to limited-English speaking pupils from Indo-Chineses language groups.

Grant funds may not supplant funds otherwise available for the program. A grant may be used to augment existing programs.

The appropriation is 20.255(2)(ez), Wis. Stats.

Pupil Minimum Competency Tests

S. 118.30, Wis. Stats., authorizes payment to school districts participating in minimum competency testing programs for the cost of printing and scoring tests eligible for reimbursement under the program. The appropriation is found under s. 20.255(2)(d), Wis. Stats.

Alcohol and Other Drug Abuse Grants

S. 115.36, Wis. Stats., authorizes the DPI to award grants to public school districts for demonstration projects designed to assist minors in avoiding or overcoming problems resulting from the abuse of alcohol and other drugs. Local districts must match 20% of the DPI grant from local sources. The appropriation is listed under s. 20.255(2)(g), Wis. Stats.

Youth Alcohol and Other Drug Abuse Programs

S. 115.362, Wis. Stats., authorizes payments of grants for alcohol and other drug abuse prevention and intervention programs similar to those made under 115.36, Alcohol and Other Drug Abuse. Districts receiving grants under 115.36 may not receive grants under 115.362.

Districts may receive only one grant under 115.362. A 20% match is required. The appropriation is found under s. 20.255(2)(fi), Wis. Stats.

Alcohol/Driver and Traffic Safety

S. 346.655, Wis. Stats., authorizes payment of grants to provide school traffic safety curriculum materials and inservice training to school districts. The source of the appropriation originated from the driver improvement surcharge on court fines and forfeitures. The goal is to counter the increasing problem of youthful drinking and driving.

Matching funds are not required. The appropriation is listed under s. 20.255(1)hm, Wis. Stats.

Section E:

Estimated Equalization and Supplemental Aid Eligibility for 1990-91

Information used to estimate equalization and supplemental (TIF) aid for 1990-91 is retrieved from financial data in the 1989-90 Annual Reports, from membership data in 1989-90 Budget and January Membership Reports, and from equalized property valuations certified by the Wisconsin Department of Revenue for calendar year 1989. Aid is computed utilizing the equalization aid formula which is briefly explained in Section D. Final aid eligibilities are computed in June, 1991 and may differ from these estimates.

If you have questions about Section E or need additional information or clarification, please contact Amza Vail, Department of Public Instruction, Bureau for State School Aids Administration and Consultation, P. O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2840.

Introductory Comments

General (equalization and supplemental) aid is financial assistance to a school district which may be used to help fund a broad range of educational purposes by the district, as opposed to categorical aid, which must be used for a specific purpose or category of program. General aid for 1990-91 is based on prior-year membership, costs, and equalized values.

Sources of Data

Figures for school district expenditures and receipts shown in this section are based on the 1989-90 Annual Reports which were due to be filed by school districts as of August 1, 1990. Subsequent revisions due to audits required under s. 120.14, Wis. Stats., have been included as well. Membership figures are based on the 1989-90 Budget Reports and January 1990 Membership Reports filed by school districts and subsequently revised by audits. Equalized valuations are based on the assessment of January 1, 1989, as certified by the Wisconsin Department of Revenue in May, 1990.

Statewide Factors

The following factors were used in the estimation of general school aid for 1990-91.

Guaranteed Valuation per Member. The state, in s. 121.07(7), Wis. Stats., guarantees a minimum tax base to support the education of each child in ~~the state~~. The primary guarantee supports costs up to the primary ceiling cost per member (described below) and is an amount determined by the department which distributes the appropriation under s. 20.255(2)(ac), Wis. Stats., each fiscal year. The secondary guarantee supports costs above the primary ceiling cost per member, and is defined as 106% of the average equalized valuation per member. Guarantees used in this estimation, by type of school district, are:

Primary Guarantee	Type	Secondary Guarantee
$297,600	K-12	$185,900
$892,800	UHS	$557,700
$446,400	K-8	$278,850

Primary Ceiling Cost Per Member. S. 121.07(6)(b), Wis. Stats., defines this value as $4,660 for 1990-91 aids.

Maximum Sharable Cost. The shared cost consists of the net cost of the general fund plus the entire net cost of the debt service fund of the school district.

Explanation of Column Headings

SCHOOL COST is one of several types of expenditures made by a school district as explained below under "Explanation of Line Headings."

COST/MEM for any given line is the school cost shown on that line divided by the number of members shown on that line.

AID/MEM for any given line is the state aid shown on that line divided by the number of members shown on that line.

LEVRT for any given line is the school cost minus the state aid on that line, divided by the equalized valuation on that line, and multiplied by 1,000 to produce a rate expressed in mills of tax per dollar of equalized valuation. This figure is for purposes of comparison only and will differ from actual school levy rates.

EQZD VALUATION is one of two figures reflecting the inclusion or exclusion of certain types of property. All districts start with a figure which reflects assessment of real property, at 100% of true value, and includes the incremental value (value above the base established) for any tax-incremental-finance (TIF) district within the boundaries of the school district. Some districts have a second value, which also has real property assessed at 100%, but which has TIF increments excluded.

MEMBERS are pupils, on a full-time equivalency basis, counted for state aid purposes. The figure shown represents the prior year average of the third Friday in September and the second Friday in January membership counts, plus the summer school ADM equivalent.

EV/MEM for any given line is the prior year equalized valuation shown on that line divided by the number of members shown on that line. This is the figure which is compared to the primary and secondary guaranteed valuations per member to determine how well the district is able to finance its own cost.

Explanation of Line Headings

The first line for a school district gives the school district name and code number, the type of district (kindergarten through Grade 12 (K-12), secondary or union high school (UHS), or elementary (K-8)), and the report used as the source of cost data for the aid computation.

PRIMARY cost is the part of shared cost which falls below the primary ceiling cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt service fund.

SECONDARY cost is the part of shared cost not included under primary cost.

ZERO ADJUSTMENT is an arithmetic means of bringing a negative value for aid computed under the primary and secondary levels up to the statutorily specified minimum level of zero. The levy rate shown on this line will always be negative, since the effect of canceling negative aid is to reduce the local property tax obligation.

TIF (tax incremental finance) or supplemental aid, paid under the provisions of Statute 20.143(1)(bs), is the additional amount of aid generated by using an equalized valuation with the eligible TIF increment (if any) excluded. The lower tax base means that the district is less able to finance its own costs and is in need of additional state aid. For 1990-91 aids, although supplemental aid is computed by the Department of Public Instruction, it is paid from Department of Development funds.

NON-SHARED in prior years was that part of the net cost of the debt service fund which exceeded $90 per member. For 1990-91 aids, this limitation was removed and the entire net cost of the debt service fund is eligible for sharing.

TOTAL cost is the sum of the primary cost and (if any) the secondary cost. Total aid is the sum of the primary aid and (if any) the secondary, zero adjustment, and TIF aids. Other figures on this line are computed as indicated under "Explanation of Column Headings."

Miscellaneous

Rounding of individual items may mean that they will not add exactly to the totals shown.

Levy rates are of several different types. (1) The required levy rate is the shared cost divided by the guaranteed valuation at each level of sharing. (2) The indicated levy rate (shown herein) is the cost minus the aid for any given line divided by the prior-year equalized valuation shown on that line. By law, 1990-91 aid computations must be based on prior-year valuations. (3) The actual levy rate, which may reflect costs or receipts not shown in this section or the district's decision to alter its fund balance, is the amount of property tax levied for all funds divided by the current year equalized valuation. By law, local taxes must be levied based on current year valuations. The actual levy is also sometimes quoted on the basis of assessed valuation, which is generally a lower figure than equalized valuation and hence produces a higher levy rate. Assessed valuation levy rates are not comparable from one municipality to another and so are of limited use.

Cost – In general, an expenditure for goods (supplies, materials, equipment, land, buildings) or services (salaries, benefits, utilities, professional fees). In determining costs, care must be taken to avoid double-counting. For example, if a school building is financed from borrowed money, the total cost should include either the payment to the building contractor or the repayment of the borrowed money, but not both. Similarly, if a school district spends money for a school lunch program out of the food service fund and also transfers money from the general fund to the food service fund to help pay for the school lunch program, it should not count the transfer as an additional cost. Depending on the grouping being examined, a given expenditure can be a cost in one case but not in another. For example, if one looks at a single school district, payments by that district to other school districts are counted as costs, since they are not otherwise counted by that district. If, however, one looks at the total expenditures for all school districts in the state, it is necessary to subtract the interdistrict transfers, or else the same cost would be reported by two different districts. There are many different ways in which costs can be assembled for various purposes. The following are the ones most often used in Wisconsin school districts:

Gross Cost – The sum of all nonduplicative expenditures of a fund or a school district.

Net Cost – The gross cost of a fund or a school district minus costs paid for by certain receipts (typically federal aid, state categorical aid, and local non-tax receipts) of that fund or district.

Complete Annual School Cost (CASC) – The gross cost in any given school year of the general, special-project, debt-service, food-service, and building funds, minus building fund costs paid for through long-term borrowing (which are already recorded in the debt-service fund).

Comprehensive Annual School Cost – Complete Annual School Cost plus the cost incurred for the operation of CESAs and the costs incurred by CHCEBs.

Partial Annual School Cost (PASC) – The CASC minus costs paid for by federal aid and local non-tax receipts.

Sharable Cost – The cost which must be paid by a combination of property taxes and state general aid; equivalent to the PASC minus costs paid for by state categorical aid; also equivalent to the net cost of the general fund plus the net cost of the debt-service fund.

Non-Shared Cost – For aid years 1989-90 and earlier, the part of the net cost of the debt-service fund of a school district which is in excess of $90 times the general aid membership. Beginning in the 1990-91 aid year all debt service cost are shareable.

Shared Cost – The cost used as the basis for computing state general aid; equivalent to the sharable cost minus the non-shared cost.

All three, however, are accurate measurements to different degrees of precision. A measurement of 1.343434 meters, though more precise (more decimal places), is less accurate. (Also see "accuracy".)

Property Valuation – The dollar value placed on land and buildings for purposes of administering property taxes. There are two commonly used methods of describing property valuation: assessed and equalized. In addition, equalized valuation may either include or exclude a TIF increment. (Also see "appraisal", "appreciation", and "depreciation".)

Assessed Valuation – The property valuation determined by the municipal (city, village, town, or county) assessor as of January 1 in any given year. It is important that property of equal value be assessed at equal amounts, but it is not necessary that the amounts reflect the true sale value of the property. State law requires that total assessments within a municipality be within 10% of equalized valuation no less frequently than every 5 years.

Assessment Ratio – The ratio of assessed to equalized valuation.

Equalized Valuation – The assessed valuation multiplied by an adjustment factor computed by the Wisconsin Department of Revenue for each type of property in each taxing district, designed to cause each type of property to have comparable value regardless of local assessment practices. The objective is to have equalized valuation reflect the fair market value of each piece of property. (Fair Market Value – The value that would be agreed upon between a willing buyer and a willing seller in an "arm's length" transaction where neither is required to act.).

Tax Incremental Finance (TIF) Increment – The growth of equalized valuation of property within a TIF district above the base-level equalized valuation of the TIF district at the time it was created. Property taxes on the TIF increment which would normally go to school districts, counties, VTAE districts, and others, instead go to the municipality which created the TIF district to help that municipality pay for the cost of urban renewal within the TIF district.

No distinction is made between the terms "student" and "pupil". A pupil may receive instruction in a school facility or in another location, such as at home or in a hospital. Instruction may be provided by direct pupil-teacher interaction or by some other approved medium, such as television, radio, telephone, and correspondence.

Pupil Count - One of the following methods of determining the number of pupils in a class, school, or school district. (Also see "school census".)

Attendance - The number of pupils present on a given school day.

Enrollment - The number of pupils officially enrolled as eligible to attend class, whether such pupils are actually in attendance on that day or not, plus pupils enrolled in home instruction and non-graduates enrolled in VTAE schools. If a pupil is absent from school without excuse for more than 20 consecutive school days, his or her enrollment is retroactively terminated on the last day of attendance.

Membership - The same as enrollment, with the following exceptions:

- First grade pupils must be at least 6 years old on September 1 to be counted.
- 5 year old kindergarten pupils must be at least 5 years old on September 1 to be counted. They are counted as half pupils, unless they are enrolled in a program which meets all day. In that case they are counted as full pupils if the class meets every day; or, if the class meets all day but not every day, an FTE is computed.
- 4 year old kindergarten pupils must be at least 4 years old on September 1 to be counted. They are counted as half pupils regardless of the amount of time spent in school.
- Handicapped pre-kindergarten pupils ages 3 through 5 are counted as half-pupils.
- In computing district totals, fractional counts are rounded off.
- Only district residents may be counted in membership.
- A pupil enrolled in a program operated by a CESA is counted by the district of residence.

More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same school plant. A school may also consist of pupils in various alternative programs under Statute 118.15(1)(d) and (2) who are grouped together for administrative convenience. There are several methods of classifying schools, of which two will be mentioned here: (a) By Administration. Generally based on who makes the decisions and pays the bills. These terms are in common use:

Public School - A school operated by publicly elected or appointed school officials, in which the program and activities are under the control of those officials, and which is supported primarily through public funds.

(b) By Grade Level. Based on local and state practice and tradition, but generally separately administered and servicing pupils grouped on the basis of age. These terms are in common use:

Junior High School – A school between the elementary- and high-school levels, usually offering at least some separate classes in different subjects and usually covering Grades 7, 8 and 9 (in a 6-3-3 plan) or 7 and 8 (in a 6-2-4 plan).

(Also see "pupil count".)

School District – A geographical area established for administering, financing, and determining attendance eligibility for elementary and/or secondary education. (Also see "LEA".) School districts may be categorized in many ways, two of which are of interest here:

- (b) By Kind. Based on method of governance:

  Common – Budget is presented to, and tax levy is voted on, by an annual meeting of citizens, who also have other more rarely used powers; however, the school board may subsequently alter the levy, and it makes most of the operating policy decisions. Covered in Subchapter I of Chapter 120 of the statutes.

Covered in Chapter 119 of the statutes.
